(1 reviews)..The Pentagon put 50,000 troops into the region around the U.S. Embassy and State Department in Baghdad on Wednesday in the largest deployment there since the U.S. invasion of Iraq in 2003. The U.S. military has been reinforcing troops already in the region to better protect the diplomatic facilities in anticipation of what many officials have called a "Saddam-like scenario" -- a possible rebel attack on the U.S. Embassy compound in Baghdad or Sadr City, the Shiite stronghold just northeast of the embassy compound. Details of the deployment have not been made public. But it comes as the U.S. is becoming increasingly concerned about a dissident group called the Mahdi Army, loyal to the anti-American Shiite cleric Muqtada al-Sadr, that has become increasingly powerful since last summer. Mahdi Army members have staged a number of attacks against the U.S. forces in the

I recently installed Ubuntu 14.04. For some reason I can only see two language versions for Ubuntu Software Center, English and Brazilian Portuguese. It works fine. I can open anything I want, even uninstalled applications. So why does this happen? A: This problem is not limited to Ubuntu Software Center. This is a limitation of the software-center package, not to Ubuntu or the Brazilian Portuguese Language. If you are an Ubuntu user with a Brazilian locale, you can have the same problem with the applications that use the software-center package. Most applications are packages that depend on software-center or a dpkg-based package: ubiquity-frontend-gtk (Ubuntu Software Center) language-selector (LANGUAGE d4474df7b8
