It's nice to have words to turn to when you are feeling bored or full of despair or the blues or any of the other emotions that come with life. I think they can bring a little beauty into it too. I've made this cute calligraphy heart frame. I love it. It fits perfectly in the little heart on the picture of my son that I've had hanging on my bedroom wall for the past 10 years now. It is such a sweet little frame and it was a perfect size for a little tribute to him. I took a snapshot of it and made a print out of it. I then started a little word list to put in. "I know I am loved" "A friend is someone who feels as deeply about you as you do about him" "Love is patient, love is kind" "Love cannot be unseen, love is not excused" "I will not be idle, I will not stand and be idle, I will walk in my garden and walk, and I will make myself a clear house." "I am the love and I am the light." "Love that never ends and never grows old" "Love is patient and kind. It does not envy, it does not boast, it is not proud, it is not rude, it is not self-seeking, it is not easily angered, it keeps no record of wrongs. Love does not delight in evil but rejoices with the truth. It always protects, always trusts, always hopes, always perseveres" In a conventional fuel injection system, the fuel injectors are actuated to provide a desired pressure drop across a coil on a primary side of an electromagnetic fuel injector. The coil on the primary side is excited with a current to energize a magnetic circuit thereby moving a fuel injector armature and opening the nozzle of the injector. The coil on the primary side is connected to a controller which may be a microprocessor-based controller, a digital controller, a servo valve controller, or other suitable type controller. In the conventional systems, electrical current is supplied to the primary coil of the 2d92ce491b
