Category:Call of Duty mods Category:First-person shooters10 Terrific Technology Resources For ASP.Net Developers I have a few weeks to compile a list of great resources for ASP.Net developers. I am a developer that specializes in the Microsoft ASP.Net stack, and have really been enjoying working with it for years now. I want to share with you what my library of resources that have helped me through the course of my career. #1 Recommended ASP.Net Resources My ASP.Net Resources Page. This is a good starting point for a developer new to the Microsoft ASP.Net stack. One of my favorite resources and resources page is Anthony Ferrara's. This page not only gives you some good starting points, but also provides a good run down of the best pages, posts, books, etc. for you to explore. If you are a developer that hasn't found it yet, you should jump on this page and start surfing. #2 Scott Hanselman's Recommended ASP.Net Developers Tools The Hanselman's tools are interesting tools that Scott has built to give you a nice starting point as to some of the Microsoft ASP.Net stack that I use. He recently added a caching tool to the set. The things I like about this page are that I can see what my IP address is from my computer, so I know what I'm sending to Scott over the network. #3 How to Get a Job in ASP.NET This is another page from Anthony Ferrara's blog. This one is somewhat different than the others, as it is a "how to get a job" in ASP.Net. In this post, he shares one of the earlier presentations he gave at VSLive. #4 Coding Horror's ASP.NET Resources Page Coding Horror is a blog and podcasting site run by Mort Zuckerman. In this link, I see that he has compiled a list of some of the resources that he thinks are "the best." #5 WordPress Blogging Resources I have decided to spend some time to help some developers who are getting started with blogging with the Microsoft stack. Paul Gardner's Blog, ASP.Net Resources, and ASP.Net Blogging has compiled a nice list of resources that are posted on his blog. #6 ASP.Net Resources
