The above image shows where the code is located in the source. If you want to do it yourself, post your compiled binary here. If you have trouble compiling, add the following lines to the end of the source file: #define RTAS 1 #include "rts.h" Changes in version 1.2 Some noteworthy changes in version 1.2 are: The game now has its own folder for saved games. New "Razor" option is added for saving the game at a separate location. The game now has the option to accept the Terms of Use.

Changes in version 1.1 Some notable changes in version 1.1 are: Some sound effects are re-recorded. RTS display is enabled. Rebinding A button can be done in the options. Changes in version 1.0 Some notable changes in version 1.0 are: Run-Time Architecture versioning is now in place. The

Windows 64-bit target is now supported. Compatibility notes The following game configurations should work with the new version: Windows Windows XP SP3 or newer. Sound Versions 1.0, 1.1, and 1.2 of Metro 2033 are compatible with Windows XP SP2 only. The following sound cards should work with the new version: Motherboard Genesis Sound Systems (MV64), iMV64F1, AMV64-GX-BDR, AMV64-GX-BDR-W32, or AMV64-GX-BDR-W64. MIDI ESU16, ALSA, OSS, MS, or ASIO driver. The sound card can be enabled when launching the game using the following line in the.ini file. Sound=1 A bug was found in version 1.0 that prevents the game from launching if the volume level is set very high.

The audio playback is still working fine, only the game's volume is too low to be heard. To fix the problem, the volume level can be reduced to an appropriate level. Razor variant in version 1.2 The Razor variant in version 1.2 is, similar to the PC and Mac version, no longer compatible with the PSP version. Reception The game currently
